This account shall be kept separate from the account established for filing fees paid under the State Wetlands Protection Act.

The Commission may waive the filing fee and costs and expenses for a permit or other application or RFD filed by a government agency and shall waive them or a request for determination filed by a person having no financial connection with the property which is the subject of the request. (S.T.M. 5/10/04)

#### **SECTION 5. Notice and Hearings**

An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a person requesting a hearing herein is other than the owner, the application, the notice of the hearing, and the permit itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any application referred to herein, with written notice given at the expense of the applicant, five working days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing within 21 days from receipt of a completed application unless an extension is authorized in writing by the applicant.

The Commission shall issue its permit in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.

The Commission in an appropriate case may combine its hearing under this By-Law with the hearing conducted under the Wetlands Protection Act, G.L. c. 131, Section 40.

The Commission shall have authority to continue the hearing to a date certain announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information offered by the applicant or others, information and plans required of the applicant, deemed necessary by the Commission in its discretion, or comments and recommendations of Boards and Officials listed in Section 6. In the event the applicant objects to a continuance or postponement, the hearing shall be closed and the Commission shall take action on such information as is available. (T.M. 5/10/89)

Notwithstanding the aforesaid, any public hearing on a permit application for work proposed on a priority development site designated as such by vote of Town Meeting under the provisions of G.L. c. 43D, shall normally be closed within 120 days. (T.M. 5/11/09)

Any person filing a permit application or a request for determination with the Commission shall provide a copy thereof at the same time, by certified mail (return receipt requested) or hand delivery, to the Board of Selectmen, Planning Board, Board of Health, Town Engineer, Inspector of Buildings, Board of Water Commissioners and State Department of Environmental Quality Engineering. An affidavit of the person providing such notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. The Commission shall not take final action until such boards and officials have had 20 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any such comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action. Permit applications for new construction, to include wells and septic systems where applicable, shall show the entire lot and all wetland resources delineated within 100 feet of proposed construction, and lot boundaries. Permit applications not including this information shall be returned as "incomplete".

#### **SECTION 7. Permits, Determination, and Conditions.**

If the Commission after a public hearing determines that the activities which are the subject of the application are likely to have a significant or cumulative effect upon the wetlands values protected by this by-law, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.

The Commission is empowered to deny a permit for failure to meet the requirements of this by-law; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the wetland values protected by this by-law; and where no conditions are adequate to protect those values. Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

A permit shall expire three years from the date of issuance, except that, if not sooner exercised, a permit issued for activities to be undertaken on a priority development site designated as such by vote of Town Meeting under the provisions of GL c. 43D, shall expire five years from the date of the expiration of the appeal period set forth in Section 13 hereof. (T.M. 5/11/09) Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed once for an additional one year period, provided that a request for a renewal is received in writing by the Commission prior to expiration.(T.M. 5/12/08).

For good cause the Commission may revoke or modify a permit issued under this by-law after notice to the holder of the permit, notice to the public, abutters, and town boards pursuant to Section 5, and public hearing.

The Commission in an appropriate case may combine the permit or other action on an application issued under this by-law with the Order of Conditions issued under the Wetlands Protection Act.

No work proposed in any application shall be undertaken until the permit issued by the Commission with respect to such work has been recorded in the registry of deeds or, if the land affected thereby be registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been so recorded.

#### **SECTION 8. Regulations.**

After public notice and public hearing the Commission shall promulgate rules and regulations to effectuate the purposes of this by-law. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this by-law.

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not have unacceptable significant or cumulative effect upon the wetland values protected by this by-law. Failure to provide adequate

evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

The establishment of an Institutional Biosafety Committee (IBC) which shall contain at least five members, at least two of whom (but no less than 10%) shall not be affiliated with the Institution. Additionally, an alternate non-affiliated member, who would attend meetings and vote if one of the regular non-affiliated members was unable to attend will also be appointed. When a non-affiliated representative vacates for any reason, the alternate non affiliated representative will automatically fill the vacated position and a new alternate will be chosen in accordance with the procedure outlined in 2. below. The IBC shall be considered an instrumentality of the Institution and shall not be deemed to be an “agency”, “board” or “office” of the Town for the purposes of the Public Records Law.
  1. The IBC shall contain at least one representative from the Institution's biosafety staff. If any work is being done at the BSL-3 level and/or if the Institution is engaged in Large Scale research or production activities, the Institution shall appoint a Biological Safety Officer who shall be a member of the IBC.
  2. Any prospective community representatives shall submit their qualifications to the BoH and to the BoS. - e. Institutions should prepare IBC meeting minutes that not only serve the Institution's need for a record of the IBC's proceedings, but that also document for the NIH and the public that the IBC is fulfilling the performance expectations of the NIH Guidelines. Minutes of all IBC meetings shall be forwarded to the BoH and, upon request, the Institution shall make the IBC meeting minutes available to the public subject to the provisions of Section 11 of this bylaw.
- f. In the event that two or more members of the IBC believe in good faith that approval by the IBC of a new registration of particular research or production involving rDNA Materials or Biological Agents was given in violation of NIH Guidelines, BMBL, this By-Law, or any other applicable laws or regulations, and such members have expressed their concerns at the meeting of the IBC approving such registration, such members may dispute such approval in writing to the chief research officer of the Institution and the Town, through its Board of Selectmen (with a copy to the Board of Health), no later than seven (7) days after such IBC approval was granted, setting forth specific reasons why such members believe that applicable laws, regulations or procedures have not been followed. In such event, no research or production involving the disputed procedures or alleged violation shall take place until the dispute has been resolved, in accordance with the procedures set forth in this paragraph.

This dispute resolution procedure shall not apply to re-approval of an existing Project, unless the terms on which the work or procedure is conducted have been materially changed.

During the seven (7) day period following receipt of such notice, the Board of Selectmen and the Institution will each designate a representative who shall meet and seek to resolve any such dispute.

If the Town and the Institution are not able to resolve such dispute within such seven (7) day period, the dispute shall be referred to a panel of three members experienced in scientific, medical, occupational, health and/or environmental areas. One panel member shall be selected by the Town, one by the Institution, and the third panel member selected by mutual agreement of the first two panel members. The Institution may require that panel members sign confidentiality agreements similar to those being signed by other persons who are not employees of the Institution and are being granted access to confidential information. Establishment of the panel shall be completed within an additional period of not more than fourteen (14) days. The panel's recommended decision shall be rendered within fourteen (14) days after the date such dispute is referred to it. Any costs associated with the dispute resolution shall be borne by the Institution. The panel's recommended decision shall be forwarded to the IBC, which after giving full consideration and substantial deference to the panel's recommended decision, shall take any further action it deems appropriate. Final disposition of the disputed approval shall be communicated to the Town through the Board of Selectmen.

**SECTION 14. Evaluation and Future Update of By-Law.** A successful implemented management strategy must be monitored to ensure that progress is being made and standards are being met. Evaluation provides the feedback necessary to determine whether the management strategy is working. Periodic evaluation also provides an opportunity to reassess the needs and goals of the community. The management strategy may need to be adjusted to reflect new or altered goals. By providing for regular evaluation as part of the management process, the need for change can be identified before a crisis develops. Evaluation methods include surveys and record keeping as well as public opinion heard through polls or hearings.

The Tree Warden and the Shade Tree Management Advisory Committee shall conduct periodic evaluations of this by-law and implementing instructions and policies.

**SECTION 15. Severability.** Should any part or provision of this by-law be determined by a court of law to be invalid, the same shall not affect the validity of the by-law as a whole nor any part thereof other than the part found invalid.

## ARTICLE 36

### STORMWATER MANAGEMENT BY-LAW

#### **SECTION 1: Purpose**

The purpose of this By-law is to protect, maintain and enhance the public health, safety, environment and general welfare by establishing minimum requirements and procedures to control the adverse effects of increased post-development stormwater runoff and non-point source pollution associated with new development and redevelopment construction activity.

The Town of Grafton requires the use of Low Impact Development (LID) stormwater management practices whenever possible and better site design to minimize stormwater related impacts within the Town. The LID practices promoted in the Massachusetts Stormwater Management Regulations should be considered for use on development and redevelopment projects in the Town.

#### **SECTION 2: Applicability**

This By-law applies to any land-disturbing activity in the Town of Grafton as defined here in §2. All other land disturbing activities below the thresholds established below do not require an administrative review but shall employ best management practices to ensure that erosion is controlled and that disturbed soil is contained on site.

**Stormwater Management Permit.** The following land-disturbing activities, whether new development or redevelopment, shall require a Stormwater Management Permit:

1. Excavating, grading, or other activity which disturbs an area of 40,000 or more square feet or a volume of earth resulting in a total quantity equal to or greater than 1,000 cubic yards.

The application for a Stormwater Management Permit shall include the submittal of a Stormwater Management Plan to the Conservation Commission. This Stormwater Management Plan shall contain sufficient information for the Commission to evaluate the environmental impact, effectiveness, and acceptability of the measures proposed by the applicant for reducing adverse impacts from stormwater. The Plan shall be designed to meet, at a minimum, the Massachusetts Stormwater Management Standards as set forth in the DEP Stormwater Management Regulations, Volumes I and II and as amended from time to time. The Town of Grafton requires the use of nonstructural stormwater management practices, better site design practices or Low Impact Development (LID) practices, such as reducing impervious cover and the preservation of Open Space and other natural areas, to the maximum extent practicable.

#### **SECTION 3: Exceptions**

The provisions of this By-law shall not apply to:

- a. Work performed for normal maintenance or improvement of land in agricultural or forestry use;

- b. The removal of hazardous and/or dead trees;

- d. Repair or replacement of individual sewage disposal systems serving a single- or two-family dwelling when required by the Board of Health for the protection of public health;
- e. Normal maintenance of existing landscaping, gardens or lawn areas associated with a single-family dwelling, provided that such maintenance does not include the following:
  - construction of any walls more than four feet in height;
  - alteration of existing grades by more than two feet in elevation; or
  - alteration of drainage patterns.
- f. Construction of utilities other than drainage (gas, water, sewer, electric, telephone, etc.) that will not alter terrain or drainage patterns.
- g. Routine maintenance and upgrade of existing municipal drainage system/stormwater system that will not significantly alter existing terrain or drainage system.
- h. Routine maintenance and upgrading of existing public ways including reclamation and paving, and other routine maintenance activities that apply to roadway maintenance that will not significantly alter the existing terrain or drainage system.

All waiver requests shall be discussed by the Commission and a decision will be made by the Commission within 30 days of receiving the waiver request.

If, in the Commission's opinion, additional time or information is required for review of a waiver request, the Commission may continue consideration of the waiver request to a date certain

announced at the meeting. In the event the applicant refuses a continuance, or fails to provide the requested information, the waiver request shall be denied.

  3. Disapprove the Stormwater Management Permit application and deny the permit if it finds that the proposed plan will not protect water resources or fails to meet the objectives and requirements of this By-law.
- d. Extensions. A Stormwater Management Permit shall be valid for three years from the date the permit is issued. The Commission may grant extensions for additional 1 year periods, upon written request for renewal no later than 30 days prior to expiration of the permit.

#### **SECTION 6: Coordination with other Boards**

Following receipt of a completed application, the Commission shall seek review and comments from the Planning Board, Board of Health, Building Inspector, and Department of Public Works. The Commission shall not make a decision on the Stormwater Management Permit until it has received comments from these entities or until 14 days have elapsed after receipt of the application materials without submission of comments thereon.

#### **SECTION 7: Notice and Hearings**

- a. Application. A completed application for a Stormwater Management Permit shall be filed with the Commission. A permit, or a determination that a permit is not required, must be obtained prior to the commencement of land disturbing activity. The permit application requirements are specified in regulations adopted by the Commission.

In an appropriate case, the Commission may accept as the application and plans under this By-law any application and plans filed under the Wetlands Protection Act (G.L. Ch. 131 §40) and regulations (310 CMR 10.00), but the Commission is not obliged to do so.

In an appropriate case, the Commission may combine its hearing under this and regulations (310 CMR 10.00).

#### **SECTION 8: Operation and Maintenance Plans**

An operation and maintenance plan (O&M Plan) is required at the time of application for all projects subject to a Stormwater Management Permit. The maintenance plan shall be designed to ensure compliance with the permit, this By-law and that the Massachusetts Surface Water Quality Standards, 314 CMR 4.00, are met in all seasons and throughout the life of the system. The Commission shall make the final decision on what maintenance option is appropriate in a given situation. The Commission will consider natural features, proximity of site to water bodies and wetland resource areas, extent of impervious surfaces, size of the site, the types of stormwater management structures, and potential need for ongoing maintenance activities when making this decision. The operation and maintenance plan shall remain on file with the Commission and shall be an ongoing requirement. Requirements for the content of the O&M Plan and its implementation are specified in Stormwater Management Rules and Regulations associated with this Bylaw.

**SECTION 11: Definitions**

The following definitions shall apply in the interpretation and implementation of this By-law:

**“Abutter”** — The owner(s) of land sharing a common property line with the owner of land that is the subject of an application and the owners of land directly opposite on any public or private street or way, and abutters to the abutters within 300 feet of the property line of land that is the subject of the application as they appear on the most recent applicable tax list, notwithstanding that the land of any such owner is located in another city or town.

**“Agriculture”** — The normal maintenance or improvement of land in agricultural or aquacultural use, as defined by the Massachusetts Wetlands Protection Act (M.G.L. C. 131, §~40) and its implementing regulations (310 CMR 10.00) and any agricultural activity which is consistent with an approved soil conservation plan prepared or approved by the United States Department of Agriculture (USDA) Natural Resources Conservation Service.

**“Alteration”** — Any activity that will measurably change the ability of a ground surface area to absorb water or will change existing surface drainage patterns. Alteration may be similarly represented as “alteration of drainage characteristics,” and “conducting land-disturbing activities.” Such changes include, but are not limited to: change from distributed runoff to confined, discrete discharge; change in the volume of runoff from the area; change in the peak rate of runoff from the area; and change in the recharge to groundwater on the area.

**“Applicant”** — Any “person,” as defined below, requesting a Stormwater Management Permit for a proposed land-disturbing activity.

**“Best Management Practice (BMP)”** — Structural, nonstructural and managerial techniques that are recognized to be the most effective and practical means to prevent and/or reduce increases in stormwater volumes and flows, reduce point source and non-point source pollution, and promote stormwater quality and protection of the environment. “Structural” BMPs are devices that are engineered and constructed to provide temporary storage and treatment of stormwater runoff. “Nonstructural” BMPs use natural measures to reduce pollution levels, do not require extensive construction efforts, and/or promote pollutant reduction by eliminating the pollutant source.

**“Clearing”** — Any activity that removes the vegetative surface cover. Clearing activities generally include disturbance or grubbing activity as defined below.

**“Cold Water Fishery”** – Environmental resources defined by Massachusetts Division of Fisheries & Wildlife as meeting at least one of three criteria:

1. Brook, brown or rainbow trout has been determined;
2. Slimy sculpin or longnose sucker are present; or
3. The water is part of the Atlantic salmon restoration effort or is stocked with Atlantic salmon fry or parr.

**“Development”** — The modification of land to accommodate a new use or expansion of use, usually involving construction.

**“Erosion”** — The wearing away of the land surface by natural or artificial forces such as wind, water, ice, gravity, or vehicle traffic and the subsequent detachment and transportation of soil particles.

**“Erosion And Sedimentation Control Plan”** — A document containing narrative, drawings and details developed by a qualified professional engineer (PE), a professional land surveyor (PLS), a registered landscape architect (RLA), or a certified professional in erosion and sedimentation control (CPESC), which includes best management practices or equivalent measures designed to control surface runoff, erosion and sedimentation during pre-construction and construction-related land disturbance activities.

**“Grubbing”** — The act of clearing land surface by digging up roots and stumps.

**“Land-Disturbing Activity or Land Disturbance”** — Any activity, including clearing and grubbing, that causes a change in the position or location of soil, sand, rock, gravel, or similar earth material.

**“Low-Impact Development (LID)”** — Development that results in minimized alterations of the land for a more sustainable land development pattern. The site planning process first identifies critical natural resources and then determines appropriate building envelopes to preserve resources. LID also incorporates a range of best management practices (BMPs) that preserve the natural hydrology of the land, minimize impervious areas and preserve vegetation.

**“Massachusetts Stormwater Management Policy”** — The policy issued by the Department of Environmental Protection, as amended from time to time, that coordinates the requirements prescribed by state regulations promulgated under the authority of the Massachusetts Wetlands Protection Act, M.G.L. C. 131, §~40, and the Massachusetts Clean Waters Act, M.G.L. C. 21, §~23-56. The policy addresses stormwater impacts through implementation of performance standards to reduce or prevent pollutants from reaching water bodies and control the quantity of runoff from a site.

**“Municipal Storm Drain System or Municipal Separate Storm Sewer System (MS4)”** — The system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, street, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man made or altered drainage channel, reservoir, and other drainage structure that together comprise the storm drainage system owned or operated by the Town of Grafton.

**“Non-Point Source Pollution”** — Pollution from diffuse sources, as opposed to discrete conveyances, caused by water, including rainfall or snowmelt, moving over or through the ground.

**“Operation and Maintenance Plan”** — A plan describing the functional, financial, and organizational mechanisms for the ongoing operation and maintenance of a stormwater management system to ensure that it continues to function as designed.

**“Outstanding Resource Waters (ORW)”** — Waters designated by the Massachusetts Department of Environmental Protection as ORWs. These waters have exceptional sociologic, recreational, ecological and/or aesthetic values and are subject to more stringent requirements under both the Massachusetts Surface Water Quality Standards (314 CMR 4.00) and the Massachusetts Stormwater Management Standards. ORWs include vernal pools certified by the Natural Heritage Program of the Massachusetts Department of Fisheries and Wildlife and Environmental Law Enforcement, all Class A designated public water supplies with their bordering vegetated wetlands, and other waters specifically designated.

**“Person”** — An individual, partnership, association, firm, company, trust, corporation, agency, authority, department or political subdivision of the Commonwealth or the federal government, to the extent permitted by law, and any officer, employee, or agent of such person.

**“Point Source”** — Any discernible, confined, and discrete conveyance, including, but not limited to, any pipe, ditch, channel, tunnel, conduit, well, discrete fissure, or container from which pollutants are or may be discharged.

**“Pre-Development”** — Those conditions that exist at the time that plans for the land development of a site or parcel of land are submitted to the Committee. When phased development or plan approval occurs (preliminary grading, roads and utilities, etc.), the existing conditions at the time prior to the first plan submission shall establish pre-development conditions.

**“Post-Development”** — Those conditions that reasonably may be expected or anticipated to exist after completion of the land development activity on a specific site or parcel of land. Post-development also refers to the phase of a new development or redevelopment project after completion, and does not refer to the construction phase of a project.

**“Redevelopment”** — Development, rehabilitation, expansion, demolition or phased projects that disturb the ground surface or increase the impervious area on previously developed sites.

**“Runoff”** — Rainfall, snowmelt, or irrigation water flowing over the ground surface.

**“Site”** — Any lot or parcel of land or area of property where land-disturbing activities are, were, or will be performed.

**“Soil”** — Earth materials, including decomposed organic material, humic materials, sand, rock and gravel.

**“Stabilization”** — The use, singly or in combination, of mechanical, structural, or vegetative methods, to prevent or retard erosion.

**“Stormwater”** — Stormwater runoff, snow melt runoff, and surface water runoff and drainage.

**“Stormwater Management Permit (SMP)”** — A permit issued by the Commission, which is designed to protect the environment of the Town of Grafton from the deleterious effects of uncontrolled and untreated stormwater runoff.

**“Stormwater Management Plan”** — A document containing narrative, drawings and details prepared by a qualified professional engineer (PE), a professional land surveyor (PLS), or a certified professional in erosion and sedimentation control (CPESC), which includes structural and nonstructural best management practices to manage and treat stormwater runoff generated from regulated development activity. A Stormwater Management Plan also includes an Operation and Maintenance Plan describing the maintenance requirements for structural best management practices.

**“Wetland Resource Area”** — Areas specified in the Massachusetts Wetlands Protection Act, M.G.L. C. 131, §~40, and in Article 25, General Wetlands Protection Bylaw, of the Town of Grafton.

#### **SECTION 12: Security**

The Commission may require the applicant to post a surety bond, cash, or other acceptable security before the start of any land-disturbing activity. The form of the bond/surety shall be approved by Town Counsel and the Town Treasurer, and be in an amount deemed sufficient by the Commission to insure that the work will be completed in accordance with the permit. Any performance bond or certificate of guarantee shall be executed and maintained by a financial institution, surety, or guaranty company qualified to do business in the Commonwealth.

#### **SECTION 13: Enforcement and Penalties**

The Commission or its authorized agent shall enforce this By-law, its regulations, orders, violation notices, and enforcement orders, and may pursue all civil and criminal remedies for such violations.

Any person who violates any provision of this By-law, regulation, order or permit issued thereunder, shall be punished by a fine of not more than \$300. Each day or part thereunder that such violation occurs or continues shall constitute a separate offense.

As an alternative to criminal prosecution or civil action, the Town may elect to utilize the non-criminal disposition procedure set forth in M.G.L.
